

ON TO RICHMOND

Will be the Cry of the Confederate Veterans Next Year.

SUCCESSFUL MEETING AT NEW ORLEANS.

The sixteenth annual reunion of the United Confederate Veterans came to a close in New Orleans Friday, April 27th.

The present officers of the organization were re-elected by acclamation there being no nominations against any of them.

The report of the committee on credentials was adopted and gave the total number of camps represented as 755 and the aggregate number of votes as 2,318.

Hopkins county was represented by the following from Earlinton, Mortons Gap, Hsley and St. Charles: Dan M. Unstead, Maj. F. B. Harris, Mr. and Mrs. Robert Hart, Mrs. Richard Salmon, Mrs. W. G. Wright, Mr. and Mrs. Woodruff. All of them report a pleasant trip and an excellent time at the reunion.

Richmond, Va., was selected by acclamation as the place for holding the next reunion, the only other place indicating a desire for the meeting being Birmingham, Ala. But the sentiment was so strong in favor of historic Richmond the advocates of Birmingham did not allow the matter to come to a vote, and withdrew in favor of Richmond before the roll call was ordered. The fact that the Jefferson Davis monument is to be unveiled in Richmond next year was a potent factor with many of the old soldiers and they were exceedingly anxious that the meeting be held there. Viewed from a business standpoint the reunion was uneventful.

The chief new measures adopted were: recommending to different states that pensions be paid slaves now living who followed their masters to war, and the setting apart of one day in each year for memorial service in behalf of the Confederate dead.

QUADRENNIAL GENERAL CONFERENCE

Of M. E. Church South Convenes in Birmingham, Ala., Today.

The quadrennial general conference of the Methodist Episcopal Church, South, convenes in Birmingham, Ala., and will be one of the most important in the history of the denomination. In addition to the accredited delegates, between 800 and 1,000 visitors are expected to attend the meeting. Vice President Fairbanks, from the Methodist Episcopal Church, North, and Ginsdale F. Young, representing the Wesleyan Church of England, will be present at the conference. The general conference will be in session about three weeks. It is probable that two or more additional bishops will be elected because of the growth of the church.

A Hopkinsville Woman Missing in San Francisco.

Jesse Edmondson, formerly editor of the Hopkinsville Independent but now of California, writes his father, T. M. Edmondson, that his wife, who was visiting friends in San Francisco at the time of the earthquake, can not be located, and it is likely she perished with the family she was visiting, as that home was found to be a heap of ruins and three members of the family are missing.

Mr. and Mrs. Edmondson lived in Hopkinsville a few years before moving to California.

ROY HENRY NOT TO BLAME

Went at Once To Henry Jones After Accidental Shooting. Did all He Could.

An incorrect item crept into the last issue of THE BEE in connection with brief report of the accidental shooting of Henry Jones. This first opportunity is taken to correct this report and to express regret that the error should have been made. The report stated that after the accidental discharge of the rifle, which inflicted a flesh wound in the calf of Mr. Jones' leg, Mr. Henry ran away without going to see what injury had been inflicted. This was incorrect and did Mr. Henry injuries. He was on the contrary, very much concerned over the accident, went at once to Mr. Jones, helped him to the hospital and staid to see the extent of the wound and to see that it was dressed. THE BEE knows that Mr. Henry has been much disturbed over this erroneous report and regrets the error exceedingly.

A DEADLY DUEL

Fought by Aged Negroes in Madisonville.

Saturday night Tom Cook shot and killed Jim Hendricks, an aged negro, near Madisonville. Cook is 65 years old and has always borne a good reputation. The difficulty arose over a girl who lived with Cook and was visiting at the home of Hendricks. When Cook called for the girl Saturday night she did not respond, but Hendricks went to the door and told Cook to go away; that the girl would not go home with him. After a few angry words Hendricks fired a pistol, and in return Cook fired a shotgun, the charge hitting Hendricks in the breast and killing him instantly. Cook came to the jail Sunday and surrendered himself to Jailer Craig, but was released on the assurance of Lucian Hancock, the man for whom he worked, of his appearance at the examining trial, which will likely be Wednesday.

LOUIS RENO.

Greenville Banker Dies at Louisville.

Following an operation for bowel trouble at a hospital in Louisville, Louis Reno, one of the wealthiest and most influential citizen of Greenville, died last week. This being the last resort, he was in a dying condition when placed on the operating table.

Mr. Reno for years had been connected with the First National Bank at Greenville and was loved and respected by all who knew him.

He is survived by a wife and several grown children.

Surprise Their Friends.

A romantic wedding took place in the open air just across the Tennessee line, near Guthrie, Sunday. The contracting parties were Victor Hardy and Miss Jennie McCrea of Hopkinsville. Only one or two intimate friends knew of the young couple's intentions. Miss Mary Anderson accompanied them to Guthrie. The ceremony was performed by Rev. Hutchinson. Mr. and Mrs. Hardy went to Pembroke on the next train. Victor Hardy is the second son of Elder J. W. Hardy, and visited this city with his father last summer. Both are well known here. The couple will make their home in Nashville, but will spend most of their time on the road, the groom holding a very lucrative position as traveling representative for Collier's Weekly.

ROLL OF HONOR.

Earlington Public School for Month Ending April 30.

Following is the honor roll for the Earlington Public School for the month of April:

Fern Stokes.
Second Grade.
Thomas Black.
First Grade.
Marvin Curtis.
Malcolm Stokes.
Jack Whitford.

EARLINGTON MAN TRUSTEE OF SOUTH KENTUCKY COLLEGE

Meeting of Board Lets Contract for Rebuilding the College.

Frank D. Rash, who has recently been chosen a member of the board of trustees of the South Kentucky college, at Hopkinsville, attended a meeting of the board on Monday evening, called for the purpose of considering the rebuilding of the college building burned some months ago. The contract for rebuilding the main building was let to Hopkinsville contractors. This will be almost a reproduction of the burned structure and will cost about \$15,000. A girls' dormitory is also to be erected, and all are expected to be in readiness for the fall term of school.

ODD FELLOWS ANNIVERSARY

At Providence—Large Number Attend.

The eighty-seventh anniversary of the Independent Order of Odd Fellows was celebrated in a most memorable way at Providence last Thursday. There was in attendance a large number, being representatives from all the lodges in the county.

The Sebree band rendered sweet music which added much to the pleasure of the occasion.

After the business meeting the members of the order enjoyed a bountiful feast which had been spread at Martin Hall. The people then went to the Cumberland Presbyterian church where the welcome address was delivered by Rev. J. L. Price, response by Mrs. Mattie Ashby followed by other speeches.

CONGRESS' GRIND.

Congressmen May Distribute "Rare and Uncommon" Seeds Only.

POSTMASTER GENERAL ASKS FOR NEW ISSUE POSTAL NOTES

Mail Carried Without Postage from San Francisco, Written on Any Old Thing.

Washington, April 30. (Special.)—Postmaster General Cortelyou has submitted to congress a draft of a bill for the adoption of a postal note as a convenient means of transmitting small sums of money through the mails. The sum of \$150,000 is asked for carrying the measure into effect, and it is believed that its adoption will result in a large diminution of the currency now sent by mail. Mr. Cortelyou's action follows the recommendations of a commission he appointed some months ago to consider the matter. This commission recommended a form of postal note which the postmaster general thinks will combine simplicity and safety, will be sold at a lower fee than is charged for the present postal money order and will not impair the revenues of the service.

It is proposed that special notes of the denominations of one, two, three, four, five, six, seven, eight and nine cents be sold at their face value without a fee. The regular postal notes will be for 10, 20, 25, 30, 40, 50, 60, 70, 75, 80 and 90 cents, \$1, \$1.50, \$2 and \$2.50. A fee of 1 cent will be charged for notes from 10 to 40 cents, and 2 cents for notes from 50 cents to \$2.50.

Appreciating the fact that the United States navy must maintain its supremacy, so far as the effectiveness of its submarine fleet is concerned, the house committee on naval affairs has decided to place at the disposal of Secretary Bonaparte \$1,000,000, so that further experiments on the below-the-surface fighting craft may be conducted. The fact that several nations have been active in acquiring a number of American built submarines has spurred congress on to make provisions for further development of this latter day branch of the navy. This opinion is not universal, however, and there probably will be a lively fight over the item when the measure finally is placed before the house by Speaker Cannon.

While the naval affairs committee has been struggling with the navy appropriations bill, the house committee on agriculture has reported a measure making appropriations for that department. The bill carries a total of \$6,880,300, which is greater by \$187,610 than the current act. A particular feature of the bill is the elimination of the free distribution of vegetable and flower seeds by congressmen. This ancient system of political buncombe has been stricken out, but the original intention of the act is recognized, namely, the distribution of "rare and uncommon" seeds for experimental purposes. The bill also carries an appropriation of \$320,000 with which to wage war on the cotton boll weevil, the gypsy and brown tail moth and the Texas cattle fever tick.

Those few radicals who still hold out for a limited court review in rate cases, as against the full review accorded at present,

(Continued on Page 6.)

FROM SUFFERING JAPAN.

Letter Acknowledging Receipt of Money Sent by Miss Alice Miller.

Miss Alice Miller is in receipt of a letter from Japan acknowledging receipt of funds which she raised some weeks ago, principally in Earlinton, and forwarded for the relief of destitute Japanese. It will be remembered that an appeal was published in these columns at the time Miss Miller took up the work. As a result of her zeal in the matter Miss Miller was able to send nearly \$70 in the remittance which is now acknowledged with true appreciation.

The letter follows:

Sendai, Japan, March 31, 1906.

Dear Miss Miller:—

During the absence of Mr. Davison from the city, I am acting treasurer and am sending you a receipt for the amount of the P. O. order that you so kindly sent to our committee. Will you please thank the friends who joined with me in sending this amount and tell them that we will use as best we can for the relief of the worst cases. I am sending you some pictures. As the warm weather comes on the condition of the very poorest will be bettered a little as they will not have to contend against the cold.

Mr. Cunningham was up last week and we went to two or three districts and did much good. The people are very appreciative of our efforts and the result of all our work will be good. Please give our Christian greetings to all the friends.

Fraternally yours,

W. B. Madden,
Acting Treasurer.

EARLINGTON BOY

He's Win Championship of Kentucky for K. S. C. League.

Earl Stone, an Earlinton boy, who is attending the Kentucky State College at Lexington and who is catcher for the K. S. C. team, assisted this team in winning the state championship by his excellent work at Lexington this week.

HOME TALENT

Play in Providence Tonight for Benefit San Francisco Sufferers.

The Earlinton Home Talent will play "My Uncle From Japan" in Providence tonight for the benefit of the earthquake and fire sufferers of San Francisco. All of the seats were sold in advance and there is no doubt that a neat sum will be realized for this worthy purpose. The company left for Providence this morning and will return Friday morning at 8 o'clock.

Madisonville Inaugurates Whipping Post.

Police Judge Hopewell Monday morning sentenced two colored boys to be whipped as punishment for a desperate fist fight which they engaged in Sunday morning on Main street. At the trial of the boys Monday morning the parents were present and agreed to inflict the punishment, which they did most effectively in the rear of the court yard in the presence of Judge Hopewell and several police officers. This punishment will likely be continued in such cases as Judge Hopewell thinks advisable.

A new use has been found for the mineral called fluorspar in the manufacture of a very beautiful kind of glass. The substance is added to the quartz mixture and produces an exquisite play of opalescent color.

SOUTH KENTUCKY CHRISTIAN CONVENTION.

Meets at Murray May 21-24. Special Railroad Rates.

The South Kentucky Christian Convention meets this year at Murray May 21-24. The work is reported to be taking on new life and the coming convention is expected to be one of the best ever held. The citizens of Murray are arranging to entertain all who attend. Those who will go are requested to write to G. H. C. Stoney, Murray, Ky., the local minister, in order to secure free entertainment. The railroad fare will be one and one-third plus 25 cents.

STATIONARY ENGINEERS AND PUMPMEN ORDERED OUT.

Mineworkers Order leaves Properties to Be Drowned Out in Illinois.

Springfield, Ill. April 28.—A general order has been issued from the headquarters of the Illinois Union Mine Workers here regarding engineers at the mines in the state, and as a result of this order a large number of engineers today deserted their posts and left the mines to fill with water or to be kept in shape by the operators as best they could.

Secretary S. W. Ryan said this morning that the general order to the locals over the state was that as soon as it was ascertained that an operator would not pay the 1903 scale for the operating of the engines at his mine during the strike the engineers and pumppmen were to be called out on once.

The operators are indignant, and many of them declare that by this step the miners have forfeited their right to be treated with, and that the strike must now be a fight to the very death.

Heda School.

The following pupils were promoted to the next higher grades at the end of this, the last half term, April 27, 1906:

Primary Grade—Edna Franklin, Mary Spence, Jimmie Wilson.

First Grade—David Bostick, Clarence Greer, Lettie Greer, Irene Wilson.

Second Grade—Walter Greer, Curt Holland, Lonnie Wicks, Willie Wilson.

Third Grade—Cordie Jennings, Grace Spence, Melvin Stokes, Myrtle Wilson.

Fourth Grade—Hazel Hale, Theodore Bostock, Mitchum Greer.

Fifth Grade—May Hale.
FRANCIS YOUNG KLINE,
Principal Heda School.

Commandery Elects Officers.

St. Bernarda Commandery No. 29, Knights Templar, held its annual election of officers last Friday night. The following officers were chosen to serve the ensuing year:

Henry L. Browning, E. C.,
Edwin J. Phillips, Gen. Carl E. Woolfolk, C. G. A. O. Sisk, S. W., John X. Taylor, J. W., Henry C. Bourland, Prelate, Geo. W. Mortnerhead, Recorder, Dan M. Evans, Treasurer, W. W. Riley Coyle, Sw. B. William S. Bramwell, St. B., J. Ellsworth Evans, E. L. Stokes, S.

Team Runs Away.

A team belonging to Dr. Brown, of Dalton, took fright in Madisonville Tuesday and ran through the streets at a rapid rate. The doctor managed to jump out without injuring himself and after becoming weary of running the team stopped at its own accord.

Miss Mary Hale, of the country, visited friends here this week.

Miss Birdie Hall, of Madisonville, spent Tuesday night with her friend, Miss Lizzie Dean.

Maj. F. B. Harris, Mortons Gap, was here Monday on business.

RURAL MAIL ROUTES MUST HAVE GOOD ROADS.

Where Complaint is Made Roads Must be Repaired.

Washington, May 1.—(Special.)—In an effort to stimulate the building of good roads, the Postoffice Department is about to adopt more heroic measures. Hereafter, when complaint is made by a rural mail carrier that a certain road is impassable, the Department will endeavor to have the local authorities repair the highway promptly and reconstruct it as to drainage and slope so that it will be passable at all seasons of the year. If the local authorities turn a deaf ear to the Departmental suggestions, the privilege of rural free delivery will be withdrawn. It is a severe punishment, but the Federal authorities believe it will result in a greatly improved system of highways throughout the country.

Better Than Quinine.

Strong testimony: "Hughes' Tonic is the best chills tonic I ever tried. Better than quinine." Sold by Druggists—50c and \$1.00 bottles.

PREPARED BY ROBINSON-PETTER CO., (Inc.) Louisville, Ky.

African husbands never kiss their wives. They would consider this too familiar expression of devotion. A Mandingo wife meeting her husband who has just returned home throws her self on the ground as a token of greeting. In Loango the women kneel, and as they rise they clap their hands.

The Schubert Lady Quartette.

Those delightful vocalists, the Schubert Lady Quartette, of Chicago, will appear at the Temple Theatre on May 8 under the auspices of the E. C. P. League. Lovers of sweet singing should not miss this splendid entertainment.

LOCOMOTIVE BLASTS

Chas. Webster, formerly employed as brakeman on the Henderson division, was here on business Sunday.

Chas. Martin has been on the local run the past few days during Conductor Heafner's absence.

Brakeman Price has been assigned to the north coal run under Conductor McDowell.

Operator Sanders, of south track, has resigned and will seek employment elsewhere.

According to reports the L. & N. has secured the largest single contract for moving freight ever given to a railroad in the South. The contract is for hauling 20,000 car loads of cement for the United States Government from Louisville to New Orleans, the entire lot to be moved in ninety days. At New Orleans the cement will be loaded on steamers for Colon, where it will be used on the Panama Canal.

Engineer McGivon, of Hopkinsville, spent several days here with friends and relatives last week.

C. H. Ackert, Fourth Vice President of the Southern Railway, is responsible for the statement that railroad labor is scarcer at the present time than it has been for years, and that before the summer is over the demand will be the greatest ever known in this country. All of the leading railroads in the United States are now in need of more men than can be secured.

Conductor Harry Simons, of Princeton, spent Sunday with friends and relatives in the city.

The L. & N. railroad company has purchased several tracts of land adjoining their right of way in Christian county. The property acquired will be sufficient if the company decides to double track the division later on.

The old water tank of the L. & N. at Providence is to be replaced by a pumping station which will be established at the Shamrock mine.

Engineer Jas. Riordan, of the Evansville Providence accommodation, has resumed duty after a week's absence.

Conductor West and crew, of the south end chain gang service, made three Kellys turns in succession last week and returned in time to get a through train to Nashville. This is thought to be another new record established on the Henderson division.

Operator L. L. Ray, who has been working nights at the depot here, is now on days.

Conductor and Mrs. Ed Heafner, of Hopkinsville, visited friends and relatives here this week.

Pat Duffy, formerly employed as operator at the depot, moved his family to Guthrie Monday, where he has accepted a position as night operator. He will reside on his father's farm near that place. Pat is exceedingly popular with those who know him,

and friends regret his removal.

The L. & N. will issue a new time card taking effect Sunday. No important changes are made in the passenger service except a Sunday train on the Providence branch. This train will make one trip to and from Earlington connecting with train 52 at 10:48 a. m. Two new through freight schedules have been added to the freight service of the Henderson division.

The rear trucks of No. 52 were derailed while passing Breton Tuesday, but no damage was done excepting to the roadbed. The wrecker was ordered from this place and traffic was delayed only a short time.

Engineer Thomas Gianini is on through freight during the absence of Engineer Griggs, who is confined to his home by illness.

Conductor Albert Hawes is on Law B. Waltz's run, while he is in Louisville attending a meeting of the Order of Railway Conductors.

Switchman Walter Peyton has resigned and will move his family to New Decatur, Ala., where he has accepted a position.

Switchman Wm. Larnouth has been off duty several days this week with an injured knee.

Switchman J. F. Lloyd has been transferred from the night yard to the day force.

ADDITIONAL LOCALS.

Mrs. N. W. Miller has resigned her position as teacher in the public school in this place, which went into effect Monday. Mr. and Mrs. Miller will move this week to Madisonville, where they will reside.

The children of the Public School enjoyed a half holiday Tuesday afternoon. Quite a number of them took advantage of the opportunity and spent the afternoon gathering flowers in the woods.

Try one setting of Buff Leghorn eggs. Get the best layers. NICK TOOMBS.

FOR RENT—A six room brick residence on Farren Ave. Has bath room, furnace, large cellar. Pleasant location. See Farnsworth & Roetz.

Several Earlingtonians are experiencing a great deal of trouble these days on account of their cows wandering from home. No less than six cases were reported last week and in some instances the cows had been gone three days. Possible this trouble could be avoided by placing the animals in some of the pasture's convenient.

Pension Roll Decreasing. Washington, April 20.—A report compiled by Commissioner Warner shows that during the past month taps were sounded for 3,000 pensioners of the civil war who were members of the G. A. R., leaving 671,810. The grand Army did not, however, show the only decrease in the pension roll, 1,338 other pensioners dying during the month and 639 being dropped for other causes making a total decrease of the pension roll for the month of 5,037. The net loss was 1,048, as 2,989 new claims were adjudicated during the month.

We Lead World in Exports. Washington, April 23.—The United States exported more goods in 1905 than any other nation in the world, according to statistics tabulated by the British board of trade. The total exports of this country amounted to \$1,621,000,000, while that of the next nation, Great Britain, reached \$1,000,000,000. Imports Great Britain ranked first and the United States second.

Mr. Irving Young, Stonefort, Ill., Cured by Zemo After Six Years' Torture and Humiliation

ZEMO
POSITIVELY
CURES
ANY FORM
OF SKIN
OR SCALP
DISEASE

READ
MR. YOUNGS
LETTER

E. W. Rose Medicine Co., St. Louis, Mo.
Dear Sirs:—It is a source of pleasure to me to permit you to use my picture before and after cured by "ZEMO," and to tell what "ZEMO" did for me. I doctored this case of (Acne) pimples for six years and spent several hundred dollars with physicians and specialists. The more salves and creams I used, the worse my face became. Mr. Ira Blackman recommended "ZEMO." Eight bottles entirely cured me, and I honestly believe "ZEMO" is the best remedy in the world for any skin disease.
Yours very truly,
Irving Young

TORNADO AND FLAMES DESTROY 3 TOWNS

TEXAS STORM LEVELED EVERYTHING IN ITS PATH FOR DISTANCE OF EIGHT MILES.

13 KILLED IN BELLEVUE. MANY OTHERS MAY DIE.

The injured number about one hundred or more—Only Three Buildings Left Standing at Bellevue, Fire Devouring Almost Everything Wind Left.

Dallas, Tex., April 23.—Three towns were practically wiped out, and a fourth was partially destroyed, by a tornado which swept Montague, Clay and Hamilton counties. Meager reports from the devastated district, which has been isolated by fallen wires, places the death list at about 13. The injured number about 100.

The ruined towns are Bellevue, Stoneburg and Hamilton. Hico was badly damaged. All the fatalities were at Bellevue and many injured at Stoneburg and Hamilton. Fire completed the destruction of Bellevue after the tornado had passed. Only three buildings were left standing there.

Physicians, surgeons and supplies have been hurried to the stricken towns on relief trains.

So far the relief crews have been unable to obtain a full list of the killed or injured, but report that the following persons are known to have lost their lives at Bellevue:

R. L. Russell, Mrs. R. L. Russell, four Russell children, Ard Carr, crushed under fallen building and cremated; Thomas Mount, W. W. Bell, candidate for county treasurer; two members of John Gray's family. Fatally injured: Mrs. Gault, — Gray and seven members of his family, Mr. McGraw, two daughters of Nee Smith, of Bowie.

The tornado was a mile wide, and traveled over the country for a distance of eight miles, leveling everything in its path, ruining crops and destroying all farm houses and barns on the way. This section is thickly settled.

Cold Facts

St. Louis, Mo., April 24, 1906.

To my Friends and the Public:

I have just closed a deal for the purchase of a car load of the prettiest and nobbiest buggies and bikes ever brought to Madisonville. I have bought these vehicles for spot cash and they will be in Madisonville about May 1st. I have consigned them to my father, J. G. Foley, who will have the entire management of sales. These buggies will be sold for cash only, and the prices that I have instructed my father to sell them at will make them go in a whoop. If he can't save you from \$5.00 to \$10.00 on a buggy, don't trade with him. If you want to save money, see my father, J. G. Foley, examine the goods and you will see that what I say here is cold facts.

Very truly your old friend,

Jack Foley.

THURSDAY, MAY 3, 1906.

EARLINGTON'S

GOOD PROMISES.

A good gain in the number of white children of school age in the Earlington district is shown by the school census just about completed, as compared with the figures of a year ago. With possibly a few scattering names to be added, the census for this year shows 681 children between the ages of six and twenty in the district. The 1905 census showed but 596. This makes 85 gain for the year. Mr. A. P. Dustin, principal of the Earlington Public School, and his assistants, who took the census, say that in their opinion the greater part of this gain is represented in families who have moved into the district since the last census was taken. Earlington is not an exponent of race suicide, and of course many of the number have grown into school age. But the showing is good for Earlington from any standpoint. The fact that a number of families did move into Earlington during the earlier months of 1905 argues the further fact that others have come in the months that have followed.

Earlington people, of course, know these things in part, but the statistics now given furnish unquestionable proof or the town's steady and healthy growth. And that is the only kind of growth the substantial citizens of Earlington have ever wanted to see. The boom spirit has been steadily avoided in the past and THE BEE trusts that it will as steadily be prevented in the future. A fresh warning against such conditions comes just now. There has been within the past few days a great depreciation in values of stocks and bonds, both railroad and industrial, and the losses, nearly all of which are sustained by the very wealthy holders of securities, have been enormous. These stocks and bonds have receded from prices that have been regarded by many as inflated. But it is stated upon the highest financial authority that the prices of these securities had not approximated the inflated and speculative values put on real estate throughout the whole country. In many places real estate values have been pushed by manipulation beyond any hope of reasonable return on investments. This is a condition it is well to avoid.

Earlington's prospects are good. Our schools are well kept and well attended; our churches are increasing in membership and growing in strength, as are our benevolent and protective orders. And all these good things, with many others not here mentioned, constitute substantial arguments to the good citizens of other parts who are looking for a growing town with good morals and good business in which to make their homes. From the business standpoint: The coal business, upon which all else is based here, is steady and sure, operated upon careful and conservative lines, with the future well planned and promising. The expanding railroad business of the town, brought here and made by the development and growth of the mining industry, was never in better condition or ever had a brighter outlook. The mercantile and other business of the town is good and capable of

expansion and improvement, based on the conditions of the coal and railroad industries here. Let us all stand together for home and work for a reasonable and healthy growth, protecting and strengthening our moral forces on every hand.

Wanderlust.

When little birds begin to fly,
And little bugs to hop,
Oh, then the brook begins to run
So fast it can not stop.

The sirup in the maples runs
As sweetly as can be,
The red sap races through the twigs
Of every bush and tree.

The children run across the grass
(Although they know 'tis wrong!),
While grown-up people watch them run,
And long, and long, and long.

The sunshine runs around the world
and everything is gay,
And oh! I have to try so hard
Now not to run away!

ABRIE FARWELL BROWN.

Great Men in Youth Cited

Against Child Labor Law.
Mrs. Elizabeth Jacobs, secretary of the industrial educational league of Washington, objects to the law just passed in the district of Columbia forbidding children under 14 to work. She cites the fact that Clay, Lincoln, Garfield and other great men had early thrust upon them the responsibilities of life, and insist that children who are poor and have nothing to do in the hours when they are out of school are much more likely to get into mischief than those employed.

MASONIC HOME BOYS AND GIRLS TO HAVE REUNION.

Kentucky Home Coming Week Feature
Arranged for All Educated at the Home.

Very wide spread interest is felt in a feature of Kentucky's Home Coming Week which has just now been announced through many personal letters sent out by the authorities having in charge the Kentucky Masonic Widows and Orphans Home. The plan is to bring together for one day and evening as many as possible of the men and women who have been educated and given a start in life through the training received in that institution during their childhood. Former Supt. White, who had charge of the Home as Superintendent for many years, but whose home is now in England, has written that he will be present. Harry Brame and Sam Ingraham are two well known young men of this place who have received urgent invitations to attend the reunion.

May Term of Circuit Court.

The May term of circuit court begins in Madisonville Monday. Clerk Gatlin is now quite busy getting his docket in readiness. In addition to a large number of cases left over from last court there are about seventy-five new cases to come up at this term including three murder cases.

Edgar Wallace of London set a trap in his room for a mouse. After he had gone to sleep the trap snapped and he awoke to find the room rapidly filling with gas from a burner that he had left turned on. He turned off the gas and then opened the trap and released the mouse—a life for a life.

Pale, Thin, Nervous?

Then your blood must be in a very bad condition. You certainly know what to take, then take it—Ayer's Sarsaparilla. If you doubt, then consult your doctor. We know what he will say about this grand old family medicine. Sold for over 60 years.

This is the first question your doctor would ask. "Is your blood regular?" He knows exactly in recovery. "How long have you and your bowels regular?" taking laxative dose of Ayer's Pills.

COULD NOT REST NIGHT OR DAY

With Irritating Skin Humor—Whole Body Affected—Scalp Itched All the Time and Hair Began to Fall Out—Wonderful Result From

APPLICATION OF CUTICURA REMEDIES

"I am never without Cuticura Soap and Cuticura Ointment since I tried them last summer. About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors; but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body; and I kept getting better, and in the time I used four boxes of Cuticura I was entirely cured, and my hair stopped falling out, but I continue to use the Cuticura on my scalp. It keeps all dandruff out and scalp is always clean. I always use Cuticura Ointment on my face after shaving, and have found nothing to equal it. I will never be without it." D.E. Blankenship.

319 N. Del. St., Indianapolis, Ind.

Oct. 27, 1905.

RECOMMENDED TO ALL MOTHERS

"I have used Cuticura Ointment for chafing of infants, and as they grew older all skin diseases were given treatment with that and the Cuticura Soap. I never found it necessary to call a doctor, as these Remedies are a sure cure, if used as directed. I am glad to recommend them to all mothers." Sincerely yours, Mrs. F. A. Kennard.

June 21, 1905. St. Paul Park, Minn.

FRISCO FACES A FOOD SHORTAGE

PLAN TO BORROW \$200,000,000
ON THE ENDORSEMENT OF
THE GOVERNMENT.

Earthquake and Fire Have Swept
Away Every Artificial Barrier,
Social Distinctions Have Disap-
peared, and Every One Is On the
Level.

San Francisco, May 2.—A feeling
akin to consternation was created at
the meeting of the general municipal
committee when Mayor Schmitz stated
that the city faced a shortage in the
food supply.

Mayor Schmitz informed the general
committee that from information in his
possession it appeared that 700 car-
loads of food and supplies of various
descriptions had been distributed since
the morning of the earthquake on April
18, and the Southern Pacific, the Santa
Fe and other transportation lines had
information of only 108 cars on the
way.

"If," said the mayor, "this informa-
tion is correct, and I have no reason
to doubt it, we will soon be worse off
than we were a week ago. If the infor-
mation has gone abroad through the
country that we are amply supplied, it
is most unfortunate, for it is apparent
we are not."

Plan to Borrow \$200,000,000.

San Francisco, April 30.—Herbert
Law, a capitalist, has gone east in a
hurry. It is said he went, after a con-
ference of men of money, to lay a pro-
posal before congress for a government
loan of \$200,000,000, at 2 per cent inter-
est, to be used in rebuilding and supple-
ment the insurance payments. Accord-
ing to the plan, the loan is to run
for 25 years, and to be secured by city
real estate.

Must Be Seen to Be Realized.

The homes of three-fourths of the
people are annihilated, and as one
walks through the desolation he slowly
realizes that the world can never
know what has happened, that 100
Pompeis would be swallowed in these
ruins, and that California in tragedy,
as in all else, has shaken her jaunty
list in the face of history and written
"Pinks" to the volcano.

Society on the Ground.

Society is on the ground, face to
face; every artificial barrier is swept
away. The social distinctions built up
in fifty years have been obliterated
with the same swiftness and finality
shown by the flames toward property.
The loss of life is small, the loss of
social position colossal. Down to the
elements, now nothing counts. Money
has momentarily lost its purchasing
power, servants, luxury, habits, pride,
yes, amity, feuds, hatred, jealousy
and contempt have disappeared. Hum-
anity is the flat, and every one is on
the level.

Putting Check on Abuses.

In the first days of the fire little or no
attempt was made to check on food-
stuffs, the main idea being to provide
against want, and it was natural
that under this excusable haphazard or-
der of affairs abuses should arise. But
even when the lines were more tightly
drawn, unscrupulous persons continued
to take advantage of the general dis-
tress, and it was then realized that the
salvation of the situation rested with
the army. So the officials of this branch
of the general government were called
upon to engage in an unprecedented
service.

Finance Plan Broached.

At a meeting, at which were
present James D. Phelan, chairman of
the finance committee, and some noted
lawyers and bankers, a plan was
broached for financing the city which
it is hoped will meet with the endorse-
ment of the general committee. It be-
lieved estimated that the city has suffered
a loss of at least \$200,000,000 by fire,
it is conceded that there is not suffi-
cient money in San Francisco to recon-
struct the city, and that the people
here must look elsewhere for funds to
rehabilitate their destroyed homes.

To Ask Government Indorsement.

Mr. Phelan said that if the money is
borrowed through ordinary channels
the rate of interest will add a burden

to necessarily increased taxation, thus
will be too heavy to be borne. The
plan of Mr. Phelan is to frame legisla-
tion to present to congress asking the
United States to indorse the proposed
bonds of San Francisco. With this
guarantee of the government, the city
will be able to go into the financial
markets of the world and borrow the
needed money at 2 or 2½ per cent, the
bonds to run for 50 years, and consti-
tute a mortgage on the best portion of
the city.

Unparalleled Activity.

San Francisco, April 29.—San Fran-
cisco is a scene of unparalleled activity.
The work of clearing debris, prepara-
tory to resurrection, phœnix-like, of
the city beautiful, is under way. Every
available man is put to work, and
the demand for laborers is sure to ex-
ceed the supply for months to come.

More Earthquake Shocks.

San Francisco, May 1.—Two slight
earthquake shocks at an interval of an
hour were felt here early Monday
morning. They were of the same na-
ture as a dozen other shocks that have
been felt since the big quake of April
18th.

Cuba Offers Aid.

Havana, May 1.—The Cuban house
of representatives passed a bill appropri-
ating \$50,000 for the relief of sufferers
by the San Francisco disaster.

Father Gapon Reported Alive.

London, April 27.—The Daily Mail's
St. Petersburg correspondent says that
Father Gapon is living quietly at Ku-
kolola, Finland.

CONGRESS' GRIND.

(Continued from Page 1.)

were given a severe jolt by Sen-
ator Spooner in his reply to Mr.
Bailey. Mr. Spooner did not
discuss rate legislation as such,
but confined himself to an argu-
ment both on the grounds of
constitutionality and wisdom,
"Against a curtailment of the
powers of the courts in any way.
Mr. Spooner contended that,
while congress could limit juris-
diction—that is, right to hear any
class of cases—it could not, if the
right to hear such cases was
granted, limit the judicial power
of the court—that is, the extent
to which the court should exer-
cise its power. "To me this is
plainly written in the constitu-
tion," said Mr. Spooner, "and no
sophistry can confuse it." He
went on to say that the propo-
sition to limit the courts in the
performance of their true func-
tion was the most important
question that had been presented
to the senate in years—far
greater than even the rate mak-
ing power itself. Mr. Spooner
attacked such a proposition with
all his strength, saying: "I stand
with all my heart and soul for
the distribution of powers be-
tween the three independent, co-
ordinate powers of the govern-
ment—the legislative, judicial
and executive—and regard it as
fundamental that none of these
be invaded by the others. It
will be a sorry day for the United
States when the courts become
terrorized either by congress or
the executive. The place to cor-
rect the errors of the inferior
courts is in the great tribunal
created for that purpose." There
seems to be but little
doubt now but that the Hepburn
bill will be amended to provide
for broad court review, and the
great question seems to be how
long the debate, in which inter-
est is rapidly waning, is to con-

CUTTING MEAT IS AN ART

Don't Forget Us.

BAILEY & CO

Big Busy Store

tinue. There are plenty of
opinions on this point, but mighty
little real information.

Uncle Sam is not going to let
the San Francisco horror pass
into history without gaining from
it a lot of valuable information.
In addition to a number of other
investigations with relation
to the earthquake, the government
has dispatched Captain John S.
Sewall of the engineer corps of
the army to California to make a
scientific investigation of the
buildings levelled or affected by
the tremors. Captain Sewall is
a noted expert in construction
work, and when his tour of San
Francisco and other stricken
towns is completed, it is expected
that he will have valuable re-
commendations to make concern-
ing the style of buildings best
calculated to withstand seismic
disturbances.

Apogee of San Francisco, the
postoffice department all this
week has been receiving a collec-
tion of mail matter from the
stricken town that is curious in
the extreme. Because of the
widespread devastation, postage
stamps could not be obtained and
stationery practically was un-
known. San Franciscans, there-
fore, have been writing to anx-
ious relatives and friends on any-
thing they could make marks
upon, and mailing these curious
missives without postage. The
postoffice department has been
delivering all such messages, and
and reassuring notes written on
collars, cuffs, shoe box covers and
shingles have been delivered. In
one instance a survivor scribbled
a note on his handkerchief and
dropped it into the mails. It
was delivered to his mother in
Virginia.

When will congress adjourn?
This is the question now agitat-
ing both houses, for the members
are growing weary. No answer
is in sight, however, and the ses-
sion may continue well into July.

HEART'S**

are caused by Indigestion. If you eat a
little too much, or if you are subject to
attacks of indigestion, you have no doubt
had shortness of breath, rapid heart beats,
heartburn or palpitation of the heart.
Indigestion causes the stomach to
expand—swell and put up against the
heart. This crowds the heart and inter-
feres with its action, and in the course of
time the heart becomes diseased.

Kodol
Dyspepsia Cure

digests what you eat, takes the strain off
of the heart, and contributes nourishment,
strength and health to every organ of the
body. Cures Indigestion, Dyspepsia, Sour
Stomach, Inflammation of the mucous
membranes lining the Stomach and Digestive
Tract, Nervous Dyspepsia and Catarrh
of the Stomach.

After eating, my food would distress me by making
my heart palpitate and I would become very weak.
Finally I got a bottle of Kodol and it gave me im-
mediate relief. After using a few bottles I am cured.

MINING NOTES.

The mineral rights of 142 acres of land have been sold by Chas. Elliott, of Providence, to the St. Bernard Mining Company.

A tract of 29,000 acres of coal land in Monroe county, Ohio, extending from Clarington on the river 10 miles back, optioned by parties of Wheeling, W. Va., has been sold to Pittsburgh and Uniontown (Penn.) capitalists, the purchase price being very close to a million dollars. The sale means the opening of big mines along the river front, the object of which will be to compete with the Pittsburgh Coal Combine for the river trade.

Lige Robinson, of Barnsley, was in the city Saturday.

The St. Bernard Mining Company have purchased several acres of land adjoining their Shamrock property and will enlarge the lake they own near the mines at Providence.

Moscow Haley, of the engineering force, was the victim of a painful accident at the power house near No. 9 mine Monday. He and a fellow workman were engaged in wrapping fiber around an electric wire when a circuit was made, burning him about the eyes. He will be compelled to wear colored glasses for several days.

Lawson Miles has been transferred from No. 11 to the No. 9 mine.

A slight wreck occurred at No. 11 mine Saturday.

A. J. Doss, of Central City, has been appointed state mine inspector by Governor Beckham. The general assembly, at its recent regular session, passed an act creating places for two assistants, who will assist State Mine Inspector C. I. Norwood. This is the first appointment announced under the new law. Mr. Doss is a practical miner, having had ten years' experience, and was strongly recommended for the position.

C. A. Morton, administrator of the estate of Floyd Deberry, who was killed on June 15, 1905, by falling alone in a room of the Nortonville Coal company's mine, has filed a suit for damages. The amount asked for in the suit is \$10,000, and Gibson, Hall and Kinchloe represent the plaintiff.

Wm. Skeen, of Empire, is visiting friends and relatives here this week.

The first coal company to commence operation in the anthracite region is the Lehigh Coal and Navigation Company, whose colliery and washery at Tamaqua, Pa., resumed work Monday. This is the first attempt to start operations since the suspension of work in this field. The men are working behind barracks, which are heavily guarded.

AMONG THE RUINS OF SAN FRANCISCO

TEMPORARY BUSINESS STRUCTURES ARE GOING UP.

PREPARING FOR NEW ORDER

Resumption of Banking Business, Through the Agency of the Branch Mint, Settling the Wheels in Motion.

San Francisco, May 2.—Among the ruins of the once great business houses, temporary structures are arising in mushroom fashion, and the rivulets of commerce are beginning to move with increasing volume into broader channels.

The Smokeless Chimneys.

The full force of the disaster that has overtaken commercial San Francisco is best appreciated by taking a trip from the Oakland side of the bay to this city. Along the entire coast of the city front not a single puff of smoke is coming from the chimneys which today stand as gruesome monuments to the awful work of two weeks ago. In the heart of the city, on top of the great Merchants' exchange steel structure, the ascending black smoke told that life had been renewed within that once busy hive of industry. This was the one exception in all of the vast downtown district. Far to the south along the water front could be seen the plants of the factories in the Petaluma district in full operation, a cheering omen for the remainder of the city.

Much Progress Being Made.

In the burned territory much progress has been made in the way of preparation for the new order of things. Scores of little wooden buildings can be seen in process of erection on all sides, and from the southern water front innumerable teams are hauling lumber for the temporary homes of merchants and retailers.

Further progress has been made in the extension of the street car service, and it is hoped soon to relieve the great congestion in travel to and from the Oakland ferries and in the suburbs.

Resumption of Banking Business.

The next important development of Tuesday was the resumption of banking business through the agency of the branch mint. By means of certified checks depositors were enabled to secure small sums of money, and business men were placed in a position to attend to some pressing wants. The distribution of money was broad in a general sense, but limited to individuals. With the possession of money many little improvements are looked for in the next few days among the small dealers and the medium grade of merchants.

According to the figures of the general committee, the grand total of food supplies received here since the day of the earthquake is \$797,100.

Money For Rehabilitation.

San Francisco, Cal., May 2.—The first definite proposition for furnishing money on a large scale to San Francisco for the purpose of rebuilding some of the burned sections was made public Tuesday, when it was announced that a syndicate of New York capitalists had agreed to advance \$100,000,000. The news came in a telegram received by W. F. Herrin, chief counsel of the Southern Pacific, from United States Senator Nevada, who had a large interest in the burned Palace hotel. Senator Nevada stated that he had submitted the plan to New York financiers, and that the offer of aid had been consented to supply the money on a bond and mortgage basis. The names of the New York people are not given. The offer is under discussion by the local finance committee.

Will Accept Official Aid.

It was decided that the citizens' committee would accept all offers of aid from foreign countries. This decision was reached when a communication was received through Japanese official sources asking if the citizens would receive the contribution of 200,000 yen made by the emperor of Japan and declined by the United States government. The finance committee held that San

Francisco being essentially a cosmopolitan city, it was obliged to care for many destitute foreigners and that it would be proper to accept all outside tenders of assistance.

The National Appropriation.
James D. Phelan, chairman of the finance committee, received a telegram from Secretary of War Taft notifying him that only \$150,000 remained out of the \$2,500,000 appropriated by congress, and that this sum would be expended for supplies, etc. The telegram was read at the session of the finance committee and filed without discussion.

Finance Committee Receipts.
At a meeting of the finance committee the general relief committee reported the total receipts of the committee were reported to be \$791,231. It was decided to have outstanding eastern contributions collected by one of two of the large banks of New York city and transmitted to the mint in this city.

Hospitals Without Support.
Chairman Phelan said 19 hospitals were absolutely without support as a result of the great disaster and to support these institutions the committee would send out appeals to expect about a thousand dollars a day.

Problem For the Money Broker.
San Francisco, May 2.—The money brokers are confronted with a serious problem, especially those who, month after month, have been in the habit of advancing the salaries of municipal employees. Tuesday was pay day in many of the departments, the day on which the brokers have been in the habit of presenting their demands and collecting the two, three or five per cent. commission which they exact.

Between the fire and the earthquake many of the assignments have been destroyed, and Auditor Horton is besieged by anxious brokers desiring that he accept a substitute for the missing powers of attorney. Horton refuses to give any satisfaction.

Warrants Where They Belong.

"The warrants will be given to the persons to whom they belong, unless proper documents showing a bona fide assignment is filed," he declared. Sixty per cent. of the city's servants drew their salaries through brokers. The profit in the business has become so great that the privilege of advancing such loans has become a political plum. To secure it some brokers have advanced large sums for campaign purposes with the understanding that the business will be directed to them.

Freaks of the Earthquake.

Stockton, Cal., May 2.—It has been discovered that in the vicinity of Woodbridge the Mokelumne river has fallen 12 feet, the bed of the river having dropped from the effects of the recent earthquake. As the waterway has overflowed frequently, farmers along the stream are highly pleased with the change, since it can carry far more water than heretofore and not endanger their lands.

Another incident of the earthquake is the drying up of Tracy lake in the northwestern part of San Joaquin county.

A New Island Formed.

San Francisco, May 2.—Prof. E. Knowlton has just returned from a 30-mile walk to Bolinas bay, where he says there is evidence the recent earthquake had its center. Few, if any, houses in that vicinity escaped damage, but no fatalities occurred. There is now an island in Bolinas bay, where were formerly muddy shoals, and on either side of the island the water is ten feet deep.

A Subterranean Maze.

Now that underground Chinatown is exposed, the police, who thought that they had a good idea of the ramifications there, are astonished at the revelations. No family of rodents ever tunneled more persistently for ingenuity than did the denizens of this quarter. So complete was the chain of subways that every part of Chinatown has its underground exit. The main arteries have been traced as far as Keely street on the south and Powell street on the north, a distance of three blocks. The tunnels extend under the streets. The subterranean maze explains the mysterious escapes of Chinese criminals and the failure of many a raid upon fainter games or slave dens.

Famous Paintings Saved.

San Francisco, May 2.—The picture, "The Man with the Hoe," the famous painting by Millet, which was reported to have been buried with others in the Crocker mansion on Nob Hill, was rescued from the flames. Other famous paintings in the same collection which were carried to safety are, "The Oaks," by Rossetti, and "Dance of the Nymphs."

The Death List at Santa Rosa.

Santa Rosa, Cal., May 2.—The list of dead and missing here ran up to a total of 77. The last body found was that of Mrs. Augusta S. Rodgers, a dressmaker. She was killed in the collapse of the Novity theater building and her body was partly incinerated.

Salvation Army Benefit.

New York, May 2.—The Salvation army has arranged the biggest meeting it has ever given outside of London for Sunday evening, May 19, at the Hippodrome. For the benefit of the San Francisco sufferers.

Big Business Consolidation.

St. Louis, May 2.—The Scruggs, Van-Gerwert & Barney Dry Goods Co. have been consolidated with the Simmons company, and will occupy the first eight floors of the Century Annex and a large part of the Century building, which together, when erected, will cover the entire block bounded by Ninth, Tenth, Olive and Locust streets. The capitalization is placed at \$5,000,000.

To Succeed Count Witte.

London, May 2.—A dispatch to the Exchange Telegraph Co. from St. Petersburg says it is reported that M. Gorenkinn, former minister of the interior, will succeed Count Witte as premier.

The Sticker is the Winner

Hammar Condensed Paint leads all today, because it is sure to stick. It is guaranteed to stick for five years. You can count on most paints for only three years. The great Hammar Paint House of St. Louis guarantees their paint to stick for five years; your money back if it don't and time is not taken either. Come in some day and we will show you how this paint is backed by a guarantee of a half million dollars in cash and a reputation of over a third of a century for square deals. We will also show you how you can save 25% on your next paint bill. Remember, please, that there is only one Hammar Paint and that we are the only dealers in this place who have the authority to sell and guarantee this paint.

Sold by John X. Taylor.

CHEAPER FARM LAND.

SOUTHWEST OFFERS BEST OPPORTUNITIES FOR SECURING HOMES.

Many farmers in the Northern and Eastern states are selling their high priced lands and locations in the Southwest. Many who have been owners of their homes in the older country are buying land in the new country.

Unique opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich alluvial, delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn, a bale of cotton, 1 to 6 tons of alfalfa, 100 bushels of potatoes, and other grains, vegetables and hay crops can be bought for \$7.50 to \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums, grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

This is a fine stock country. No frost, winter landing. Fine range, pure water, mild climate. A healthy, growing country, with a great future. Write for map and descriptive literature on Missouri, Arkansas, Louisiana, Texas, Kansas or Indian Territory. Very cheapest rates, first and third Tuesday of each month. Address:

The Sins of the Parent FREQUENTLY FALL UPON THE CHILDREN

Especially terrible does it seem that children should be born into the world—as they frequently are—having in their little innocent bodies the germs of Specific Blood Poison, or, more frequently, Scrofula, which is, as a rule, the result of Specific Blood Poison in some ancestor.

It would be an outlook almost too intolerable to contemplate if such scourges as scrofula and other forms of blood poisoning were incurable. Yet for long centuries these diseases have baffled the most skillful medical science.

Men and women in the past have resorted to cures for these diseases which were almost as obnoxious and dangerous as the disease itself. The taking into the system of mercury and other mineral drugs cannot be too strenuously condemned and avoided in such cases.

That a cure, absolute and sure, can be effected is evidenced by the following telling, telling of the result of taking

FOERG'S REMEDY

Oconito, Va., Aug. 15th, 1905

To Whom It May Concern:—
"Walter, my little child that was badly afflicted with Scrofula. After trying three of the best doctors we could employ they continued to get worse all the while. I was advised by a friend to try Foerg's Remedy, so I procured one bottle, and it has cured them sound and well. This was four years ago, and no sign of return, so I cannot say too much for this medicine, for I think it the best blood medicine in the world."
R. C. COUNTRYMAN

This is a true copy of statement sent us by Mr. Countryman, and is on file in our office.

Don't delay, but go to your druggist and get a bottle. If your druggist does not handle this remedy send us \$1.00 for one bottle or \$5.00 for six bottles, with our absolute guarantee of money refunded if druggist or this company in full. All packages sent in plain wrappers. All correspondence strictly confidential.

SOUTHWEST

The Land of BIG CROPS and PROSPERITY

Are you making as much off your farm as you ought? No doubt you are making you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, so that you are not able to go where the price of good land is little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying your rent.

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$5 to \$10 an acre. This land is increasing in value each year.

See the Southwest at Small Cost

A trip to the Southwest would convince you that your best interests lay in settling there. The trip can be made at very little expense. On the 1st and 3rd Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stop over and will be allowed for you to examine any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.
L. C. BARRY, T. P. A., Cotton Belt Route, 52 Todd Building, Louisville, Ky.

Blind Headache

"About a year ago," writes Mrs. Mattie Allen, of 1123 Broadway, Augusta, Ga., "I suffered with blind, sick headaches and backaches, and could get no relief until I tried

WINE CARD

Woman's Relief

I immediately commenced to improve, and now I feel like a new woman, and wish to recommend it to all sick women, for I know it will cure them, as it did me."

WRITE
US
FREELY

and frankly, describing your symptoms. We will consider your case and give you free advice (in plain sealed envelope). Don't hesitate, but write today. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

Cardui is pure, medicinal extract of vegetable herbs, which relieves female pains, regulates female functions, tones up the organs to a proper state of health. Try it for your trouble. Every druggist sells it in \$1.00 bottles.

Around the Farm

Management of Chickens.

About 24 hours after chickens are hatched they should be removed with the hen to a clean coop, one that has been thoroughly disinfected, so that every form of parasite life is destroyed. They should be fed a small amount of hard boiled eggs for the first two days, then they may receive bread crumbs or cracked wheat. Clean water should be supplied in a shallow vessel. It is a good plan to cover the floor of the coop with sand; by so doing, they, in picking up their food, will get more or less sand, which will prove beneficial.

After the chicks are a week old they will enjoy a moderately soft mash of ground wheat, to which small amounts of sand and bone meal have been added. It is essential that they receive more of the mineral nutrients than exist in ordinary foods. The organic forms of phosphate as found in ground bones will prove more efficient than the rock phosphate. Experiments have demonstrated that it is not advisable to mix ground oyster shells with the food of young chicks, although it is a good plan to permit them to take of it if they wish. Early hatched chicks will prove less troublesome to rear than late hatched. They escape in a measure, to the torment of parasites usually so common during the warm season, and the pullets will lay well in the fall, when eggs are a good price. Hens having free range and proper food will usually give much better results with their chickens than hens which are confined in yards.

Things to Remember.

Good corn and more of it should be our motto this year.

Redtop does well on soils which are acid and has the preference over timothy for such soils.

Plain people like plain parsley, but curly parsley pleases particular people.

A sprinkling of wood ashes is a splendid thing for growing lettuce. The potato in wood ashes is a most valuable stimulant to the needed quick growth of the plant.—F. B.

Lay the garden all out in nice, straight rows, drill the seed in even and straight, and keep it well tended with a wheel hoe, and gardening will be the pleasure that it should be.

Improvement in fruits and cultivated plants, is an abiding evidence of human progress.

The world can get along without the Wall Street manipulators; but the man who raises good corn and potatoes is indispensable.

If you have good success with a thing, stick to it for a money maker, while experimenting on something else.

The Chicks and Ducks.

Overcrowding is a foe to thrift. Standard bred does not necessarily mean egg bred poultry.

Every business has its failures. Why should the poultry business be an exception?

There is more profit in raising well 100 chicks than in neglecting 300.

Broody ducks are a rarity.

You seldom can fatten the laying duck.

One hundred ducklings require a broader space of about 750 feet.

Duck eggs lose their fertility very rapidly, and therefore should be incubated while in fresh condition.

If young ducks at the age of 5 or 6

weeks are accustomed to bathing water they will be able to stand more of a rainstorm than those kept on land.

Put a little coal tar in the kerosene when painting or spraying the roosts. The oil will evaporate; the tar will stick to the wood.—Farm Journal.

Trap Nests.

The trap nest is a good thing in the experiment station and on the large poultry farms where it is desired to keep track of what each hen is doing. On the ordinary farm, however, the trap nest is of no value for the reason that, after she has laid, some one must be on hand to release the fowl and record her number. If the farmer wishes to keep an individual record of his poultry he will have to work up some other plan rather than the trap nest.—Ohio Farmer.

Fertilizer For Potatoes.

A ton of fertilizer per acre is used by E. A. Rodgers of Maine, in growing potatoes. Last year he grew 1,500 bushels on 42 acres. Half this fertilizer, which analyzes four per cent. nitrogen, six per cent. phosphoric acid and ten per cent. potash, is put in the drill with the seed and the rest applied when the vines are three or four inches high. The land is a clay loam and a run down farm.

Seedling Grass With Oats.

After plowing seed the manure and harrow once. Sow evenly oats, grass and clover seed and go over with a brush harrow. The first year you can get a good crop of oats, the second year a crop of good hay and in the fall a crop of clover. Have tried it with success, writes a Wisconsin farmer.

Keep a Record.

We find it a help to keep a brief record of our work. It takes but a few moments to jot down some of the things we learn as we go along. Some folks say that they have no time for such things; but there are some matters we must take time to look after, if we would avoid failure and stop the leaks.—Farm Journal.

Sow Clover.

Sow some clover seed each spring, so as to keep the ground well fertilized. The hay pays about as well as any crop that one can grow. After you get started in the kind that you like best, raise seed of your own, to use and to sell.

Nothing in the Color.

There is no such thing as color or part-colored breeds being more hardy than white ones. All depends upon the condition of the breeding stock, and the care they receive.

Keep Hens Comfortable.

The more the farmer will study the egg question, the more convinced he will become that the only way to make a profit is to have the hens comfortable.

Cleanliness Important.

Put on your cleanest apron when you go to skim milk or to the butter. Never think that any old thing will do. Only the best is good enough.

Deaths From Appendicitis

decrease in the same ratio that the use of Dr. King's New Life Pills increases. They save you from danger and bring quick and painless relief from constipation and the ill growing out of it. Strength and vigor always follow their use. Guaranteed by Dr. J. C. Bernard Drug Store, 332

An Animal Story For
Little Folks

Bunt, the Bear

Bunt, Uncle Billy's pet bear, had broken his chain and got loose. Uncle Billy was gone to town, and Uncle Billy was the only person in the house who could make him behave.

"Bunt's loose! Bunt's loose!" screamed all the children, running in to their mother. Aunt Jennie took them with her into the bedroom.

Bunt came shuffling and snuffling into the house. He smelled some hon-

PULLED AT THE LID.

ey up in the attic in a big wooden chest. Bears love honey. He shuffled upstairs and grunted and snuffled when he got close enough to smell the honey plain. He climbed up on the back of the chest and pulled at the lid. Up it came, and in went his brown hairy paw. He got it full of honey. Then he leaped forward, and his weight smashed the lid down on it, pinching it cruelly. He drew back howling, pulled his paw out and licked it. Then he tried again. For nearly an hour old Bunt worked at that chest, but as he always got up on the lid before he tried to open it so he always pinched his toes and never got any honey.

When Uncle Billy came home they told him how bad the bear had been. He went upstairs to lead him down and chain him in the back yard.

Poor Bunt looked so miserable when he was being dragged away that Uncle Billy said, "I'll sell you to a circus, but first I'll give you as much honey as you want to eat, only you mustn't tell anybody I gave it to you."

Bunt winked his little piggy eyes as much as to say that he knew better than to tell. Uncle Billy turned back and gave him a great big piece of honeycomb to eat, and I am sure that Bunt did understand every word, for he has never to this day told anybody who gave him that honeycomb.—Atlanta Constitution.

A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is the most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, the pelvic headaches, the dragging-down distress in the pelvic region, the pain and tenderness over the lower abdominal region, dries up the watery catarrhal discharges, disintegrates and weakens, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their names on the bottle, and are taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the lingering tabes and emaciation which it has restored delicate, weak women to strong and vigorous health and vitality, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Pierce's Pleasant Pellets do not grip. They effectually cleanse the system of accumulated impurities. The People's Common Sense Medical Adviser, by Dr. Pierce, 108 pages, is sent free on receipt of stamps to pay expenses of mailing only. Send 31 one-cent stamps for the book in paper cover, or 31 stamps for the cloth-bound volume. Address as above.

Squire Richard VanWinkle, a resident of Bergen county, N. J., celebrated his nineteenth birthday last week by having his photograph taken for the first time. He wore the suit of clothes and the tall hat which he bought for his second marriage forty years ago. Mr. VanWinkle's ancestors came from Holland in 1685 and settled in Bergen county.

A good complexion is impossible with the stomach out of order. If pasty sallow people would pay more attention to their stomachs and less to the skin on their faces, they would have better complexions. KODOL FOR DYSPEPSIA will digest what you eat and put your stomach back in right shape to do its own work. Kodol relieves palpitation of the heart, flatulence, sour stomach, heart burn, etc., etc.

Sold by John X. Taylor.

PROVIDENCE, KY.

Keep Your Eye on It!

FRIDAY and SATURDAY,

May 11-12, '06. GREAT AUCTION SALE

Of High Class Desirable Building Lots in Coleman's Addition to Providence.

Twenty-five of These Choice Lots will be sold to the Highest Bidder without Reserve.

Streets paved and graded! Lots lay beautifully! In one of the best neighborhoods in the city! Built up with desirable homes around it! New houses going up this spring, some of the handsomest in the city! Strictly gilt edged property. The location is right. It lays right. It looks right. It is approached right. There is not a single argument against it as the coming residence section of Providence.

THE PROVIDENCE IMPROVEMENT COMPANY bought 100 lots from W. S. Coleman, who was moving to Shelby county, at a great bargain. He had been selling lots all around and up to the property sold us at \$150 to \$200 each before any new railroads were coming to Providence and before the great era of development set in there. The lots he sold and the nice residences erected thereon and occupied by as good people as can be found anywhere are there to speak for themselves. The Providence Improvement Co. well know they have a very valuable piece of real estate and know they will get far higher prices in the future than at present, but this company desires to assist in the development of Providence, and also knows that every lot sold and residence built means added value to their property. Therefore, in order to keep in touch with the spirit of progress and help themselves as well as Providence, twenty-five choice lots will be sold at this sale at what they will bring, and thus the home building in that addition will go on and on each year, and as values continue to rise, the Providence Improvement Co. will reap a rich return for their investment, and present purchasers will get in on the ground floor and receive a corresponding increase in value. This company has let the contract for three modern residences at a cost of \$1,500 each, which will be built in this addition immediately, which will be rented or sold on easy terms. Nice pavements will be laid on both sides of the streets on which lots will be sold, so that purchasers will know that they will have convenient access to their property at any season of the year and that the walks will be uniform and attractive.

We shall be glad for you to attend this sale, exercise your judgment and buy or not, as you may please. Previous to the sale special inducements will be given to any one wishing to purchase a lot and build a nice residence thereon.

T. E. FINLEY, a representative of the company, will be at Providence the week before the sale and will be pleased to meet any one interested.

Providence Improvement Co.

Composed of the Following Stockholders:

T. E. FINLEY S. D. LANGLEY
C. C. GIVENS C. H. MURPHEY
